

I'm a graphic designer obsessed with proving myself through my work.  
Hire me and I'll show you what I can do.

### **References available upon request.**

Currently freelancing for Media Macros and  
Emory Chapel UMC in Newnan, GA

### **Abilities:**

- Advanced knowledge of HTML, CSS, and ActionScript 3.0.
- Proficient knowledge of Quickbooks and the MS Office Suite.
- Talented in traditional and digital illustration techniques.
- Confident using a Mac or PC computer.

### **Education:**

- Chester College of New England – BA  
Graduated May 2008 – 3.0 GPA  
I recieved a Graphic Design Scholarship for 4 years upon admission,  
based on only my portfolio.
- Contoocook Valley Regional High School – High School Diploma  
Graduated June 2004 – 2.5 GPA  
During my senior year, one of my poster designs was chosen by the  
Monadnock Music Company for the Flowers and Fiddles show. The design  
was printed and distributed throughout Keene and other surrounding cities.

Another of my poster designs was chosen by the student body and faculty to  
represent the school's new mission statement.

### **Work:**

Auto Solutions Magazine/ASMSearch.com - Manchester, NH  
Designer/Web Associate  
September 2009 - August 2010

Initially at this job, I started out part-time filling ads. After 3 weeks I was working  
full-time. At this point, I began to hard-code and style the website to the owner  
and creative director's specifications to standardize each page. I also updated the  
100+ page website every week with the new ad content, and did other site  
maintenance.

**Eastern Mountain Sports - Peterborough, NH**

Graphic Designer

June 2008 - August 2008

At EMS, I illustrated small pieces for in-store signage, designed a wrap for the EMS trailer, updated SKU's for product signage, and created window signs for use in new stores.

I also designed animated web banners and buttons for holiday promotions.

Some of my last assignments included creating handouts for store events, and working on the Fall '08/Winter '09 catalog.

**NH Elevator, Inc. - Manchester, NH**

Office Associate/Designer

October 2003 - Present

I've worked for NH Elevator, Inc. since my parents founded it. When I worked for them on a regular basis, I performed administrative tasks, shipped and ordered parts, and assigned jobs to our mechanics and helpers. I am currently working with my father to update the website and all other advertising pieces.

**Internships:**

**Wedü - Manchester, NH**

Graphic Design Intern

May 2006 - August 2006

I created signage for local restaurants, designed T-shirts, and updated collateral pieces for clients. I also reworked mailer projects to better understand newsletter layout. I gained a good understanding of how design agencies work from this internship and have been able to apply my experience there to my recent jobs and freelance projects.

**Eastern Mountain Sports - Peterborough, NH**

Designer/Web Associate

September 2009 - August 2010

I illustrated and created the layout for the Product Information Guide, which was to be used for trailing. I also illustrated key images that were first used in the Fall '06/Winter '07 catalog, and are still used in the catalogs and as in-store signage. This internship gave me my first corporate design experience and provided a solid example of how design sets the standard for the whole feel of corporate identity and a retail environment.

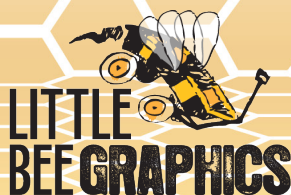

**Mariposa Museum - Peterborough, NH**

Intern

January 2004 - June 2004

At this internship, I acted as a museum guide, translated text on Japanese items, and assisted in the purchase of new display pieces.
